LitePaper

An Amazing Business Idea With A Unique Airdrop Series Concept – “Airdrops That Pay & Grow Month After Month, For Lifetime!”

Welcome to a revolutionary idea where we are giving partnership of an amazing business to our community through an airdrop series that offers lifetime passive income! What once seemed impossible is now a reality, with many real people earning consistent, with growing rewards.

Unlike traditional airdrops that provide a one-time bonus, in this unique concept, you get lifetime monthly income from every airdrop reward and these rewards continue to grow each month through a series of airdrops.

Our lite paper explains the entire process in detail—join us and turn your airdrop rewards into a lifetime fortune!"

1. WHO WE ARE? - CRYPTOPIXELS

CryptoPixels is the world's first community-owned crypto digital billboard, built with one million pixels. We rent out these pixels to crypto projects for advertisements, generating substantial monthly revenue for CryptoPixels.

What makes CryptoPixels truly unique is that the billboard is owned by our community, making them, our true business partners. How? Each pixel is owned by a community member, and the monthly profits generated by those pixels are shared directly with the pixel owners.

There are two ways to become a pixel owner:

1. **Purchase pixels**
2. **Collect free** by participating in our exclusive Airdrop series, which allows you to collect pixels by completing simple daily tasks.

Unlike traditional airdrops, our Airdrop is a continuous series, not a one-time event. You can gather as many pixels as you want through this innovative system. Our first Airdrop closed on September 15th, but don't worry—our next one is coming soon! For more details, check out the Airdrop section.

Value of each pixel = 1 USDT

2. BENEFITS OF OWNING PIXELS

Owning pixels give you a lifetime source of monthly income. These pixels aren't just a one-time reward; they generate continuous, growing profits.

By holding pixels, you receive significant monthly rewards from your own pixels as well as additional benefits from the pixels owned by your team. In short, these pixels offer you multiple ways to earn each month, creating a steady and reliable income stream through:

1. Personal Monthly Profit
2. Monthly Profit from Team's Pixels
3. SLE Jackpot

2.1 PERSONAL MONTHLY INCOME:

You can **collect pixels for free through our multiple airdrop series**, receive as gifts, or purchase them—and earn a monthly profit from the ad revenue generated by your pixels. For example, if you own 1,000 pixels, you'll earn 100 USDT in profit every month from those pixels.

The most exciting part? Your pixel count keeps growing each month with every new airdrop series, means even more potential profit!

Check out how much you can earn monthly based on the number of pixels **you own!**

No. of Pixels	You will get
1 - 9	7% monthly profit
10 - 99	8% monthly profit
100 - 999	9% monthly profit
+999	10% monthly profit

Hint: You can convert your **few collected pixels to 1000\$** - Find out the answer in this Lite paper.

2.2 MONTHLY INCOME FROM YOUR TEAM'S PIXELS

Along with your personal pixel's monthly profit, by inviting others to join our airdrop and building your team, you can earn up to 10% monthly profit from every pixel owned by your team members, up to 15 levels deep.

As your team members earn monthly profit from their pixels, you'll receive a specific share from their rental income each month as their sponsor.

How Does It Work?

Let's say you invite a **person, 'A'**. If 'A' owns 1,000 pixels—whether collected through our airdrop or purchased—'A' will earn a 10% monthly profit on those pixels, which equals 100 USDT. As their sponsor, you'll **receive 10% of 'A's monthly income**, giving you **10 USDT** every month.

This opportunity is unlike anything seen before in the crypto world! You can earn monthly income for life from your team's free Airdrop pixels.

Unlock the potential to **earn up to 3,316 USDT every month** from your team's airdrop pixels with a well-built team!

You've probably seen other income charts before, but many fail because they require selling, and not everyone is willing to spend. Plus, building and training a team can be tough.

But here's why **this system is different** and why it actually works:

1. **It's free**—no need to sell anything. Just invite friends to collect a free airdrop that gives monthly profits.
2. **It's not a one-time airdrop**—there's a series of airdrops, giving you time to train and grow your team.
3. **Continuously growing**—each new airdrop pixel in your team, adds to your previous team's pixels balance, so your earnings keep growing day by day.

How It Works (If Each Team Member Has Just 5 Airdrop Pixels):

Stage 1: Getting Started

Invite just 3 friends, and ask them to do the same. By the end of the first airdrop, your team of 81 members can start earning you **3 USDT every month** for life.

Stage 2: Team Growth

That's only the beginning! If those 81 members each invite 3 more people, your team grows to **6,561 members**. By the second airdrop, you could be earning **166 USDT monthly** from your team's pixels.

Stage 3: Achieving Your Goal

By the third airdrop, your team will be thriving, and with consistent effort, you could easily reach **\$3,316 per month, for lifetime**, from your growing team's pixels.

Yes, it may start slow, but with dedication, you can achieve these financial goals through our free airdrop series. The longer you stick with it, the bigger the rewards!

There are no shortcuts we should learn from our previous experiences

Here's a visual guide to show you how steady, consistent efforts can lead you to your goal of earning **\$3,316 monthly** from your team's airdrop pixels. Success is all about the long game!

You Have	Levels	No. of People	Profit %	Profit in USDT	Monthly
1 Pixel	1	3	10	0.24 \$	3 USDT
	2	9	3	0.21 \$	
	3	27	3	0.68 \$	
	4	81	3	2 \$	
10 Pixels	5	243	3	6 \$	166 USDT
	6	729	3	17.5 \$	
	7	2187	2	35	
	8	6561	2	105	
100 Pixels	9	19683	5	787	3316 USDT
	10	59049	5	2361	
1000 Pixels	11	-	5		 Earn up to 15 Levels In Example Only 10 Levels Shown
	12	-	1		
	13	-	1		
	14	-	1		
	15	-	1		

These stats are based on inviting just **3 people**, with each team member holding only **5 pixels**, growing across **10 levels**.

We've also included real-life visuals of monthly income from a few members who've already started earning from their team's airdrop pixels after the first airdrop! This gives you a clearer idea of the potential income your team's airdrop pixels can generate.

Stats - Lifetime & Monthly Income from Team's Airdrop Pixels

We're excited to share the incredible earnings of some of our top leaders who built their teams during the first airdrop. These leaders have unlocked **lifetime monthly income** from their team's airdrop pixels!

Real Team Earnings from Airdrop 1.1

What's even more thrilling about these stats?

Continuous Growth

Their earnings won't stop here. With every upcoming airdrop, their pixel count—and income—will continue to grow, month after month.

Consistent Income That Never Reduces

Even if your team doesn't collect new pixels, you'll still earn from the ones they already have. Your income is **secure** and will keep flowing in every month, for life!

3. SLE JACKPOT: YOUR CHANCE TO WIN BIG, FAST!

Introducing the most unique reward plan in the crypto world—our **Single Line Express (SLE) Jackpot**, where you can win \$156,100, \$15,610, or \$1,561 in just a few minutes!

This exciting plan requires no team-building or inviting others. Everyone who joins the SLE Jackpot enters a straight, single line—no matter where they're from or who referred them. The rewards are distributed on a **first-come, first-served** basis, meaning the sooner you join, the sooner you can win. Later participants will support the earlier ones, ensuring the rewards flow quickly to those who joined first.

SLE Jackpot Lines:

There are three Jackpot lines based on the number of pixels you own.:

1. SL-10 [For 10 – 99 Pixel Holders]
2. SL-100 [For 100 – 999 Pixel Holders]
3. SL-1000 [For +999 Pixel Holders]

When you purchase pixels, you're automatically placed in the corresponding line. For example, buying 10–99 pixels places you in SL-10, and purchasing 100–999 pixels gets you into SL-100 and so on.

Each Line have 5 Different Rewards (All Reward in USDT)

Line Name	1 st Reward	2 nd Reward	3 rd Reward	4 th Reward	5 th Reward
SL-10	1	10	50	500	1,000
SL-100	10	100	500	5,000	10,000
SL-1000	100	1,000	5,000	50,000	100,000

Get Ready to Grab Your Spot and Rest leave on Us!

Right now, all positions in the SLE Jackpot lines are **vacant**, giving you the perfect chance to grab a top spot. Don't miss this golden opportunity—get in early and secure your place at the top of the line!

For details on **when and how you can join the SLE Jackpot**, check the Road Map of SLE Jackpot section.

4. PIXEL REFUND/CASH OUT & WITHDRAWAL METHODS

If you ever want to cash out your pixels for any reason, CryptoPixels offers a hassle-free solution. We will buy back all pixels from community members who wish to cash out.

4.1 PIXEL CASH OUT RULES

1. Rules For Purchased pixels	2. Rules For Gifted/Airdrop Pixels
<p>You can cash out your purchased pixels anytime.</p> <p>However, if you request a refund within 3 months, a 20% deduction fee will apply (due to the large incentives we offer on purchased pixels).</p> <p>After 3 months, no deductions will be made.</p>	<p>Your gifted and airdropped pixels are locked for 3 months from the time they're generated.</p> <p>After that, they automatically unlock, allowing you to cash out a certain numbers, if you wish. Otherwise, they'll continue earning you monthly profit.</p> <p>Note: Must have to be an active user for 90 days</p>

4.2 WITHDRAWAL RULES

*All monthly profits, rewards, and pixel cash-outs are paid in USDT (BEP-20).

- Withdrawals can be made anytime (processing is manual and may take up to 12 hours).
- The minimum withdrawal amount is 5 USDT for Web3 wallets.
- You can withdraw your funds using the following methods:
 1. Directly to your Web3 Wallet
 2. Through our Exchangers, who can assist you in cashing out to your bank account.

All rewards are paid in USDT (BEP-20) – So there is no need to wait for listing of any token – Instant Rewards in USDT

5. OUR BILLBOARD: THE VISION BEHIND ITS CREATION

In the rapidly evolving world of cryptocurrency, **2.5 million new tokens** are created every day on platforms like Solana, Ethereum, and others. These projects need **real, engaged communities** to thrive, which is why we developed an innovative marketing platform to help them succeed.

Building Active Communities

We understand the importance of having an active and genuine community, so we've introduced the concept of **community ownership**. Our community members are not just participants; they are **business partners** who own the billboards and share in the profits generated.

How It Works

Every day, **hundreds and thousands of airdrop participants** visit our billboard page to collect their rewards. This traffic creates a fantastic opportunity for crypto projects to showcase themselves on our billboards, connecting them directly with potential supporters.

We Pay Real Reward - Through Real Revenue Model

The rewards we distribute every month, come from **renting out pixels** to crypto projects for advertising purposes. These projects place their ads on our billboards, generating significant profits that we share with our community members. This is a win-win situation—projects gain exposure, and our community earns rewards!

Our Billboards

To meet the growing demands of the market, we are launching **three billboards**, each consisting of **1 million pixels**. Every pixel on these billboards will be owned by our community members, reinforcing the idea of partnership and shared success.

To ensure a fair and transparent distribution of pixels, we are introducing a series of **airdrops for each billboard**. This way, everyone has a chance to participate and collect free pixels.

In this version of the litepaper, we are sharing the complete details of our **1st billboard pixel allocation** and **airdrop series**. Details about 2nd and 3rd billboards will be shared in the next version of our litepaper.

Note: This is a long-term project that can really make a difference in people's lives.

6. 1ST BILLBOARD DISTRIBUTION, AIRDROP AND RULES:

6.1 PIXELS DISTRIBUTION OF 1ST BILLBOARD:

There are total 1 Million pixels in our 1st Billboard and below is the pixel distribution plan.

- 30% Pixel for sale - to participate in SLE Jackpot
- 70% Pixels will be rewarded - in 1st Billboard - Airdrop Series

6.2 ROAD MAP OF 1ST BILLBOARD AIRDROPS:

Airdrop 1-1:

Our first airdrop was a small-scale pilot project, with a limited quantity of pixels. This airdrop concluded on 15th September.

Note: Participants of Airdrop 1.1 will be able to convert their airdrop points into pixels starting from 5th October 2024.

Airdrop 1.2:

- Airdrop Pixels: **100,000**
- Start Date: **20th October 2024**
- Airdrop Duration: 30 – 33 Days

Airdrop 1.3:

- Airdrop Pixels: **200,000**
- Start Date: 15 Days after the **end of Airdrop 1.2**
- Airdrop Duration: 35 – 40 Days

Airdrop 1.4:

- Airdrop Pixels: **400,000**
- Start Date: 15 Days after the **end of Airdrop 1-3**
- Airdrop Duration: 45 – 50 Days

We plan to increase the number of airdrop pixels in each upcoming airdrop as our community gets bigger, so everyone can have a fair share.

7. BOOSTERS, KYC & AIRDROP RULES:

Our goal is to build a genuine community with a long-term vision, ensuring rewards go to our loyal and deserving members. Based on our previous KYC process and observations—where some individuals created fake IDs for boosters, used multiple accounts on the same device, and attempted to cheat the KYC—we've redefined the rules for participating in the airdrop, boosters, and the KYC process to maintain fairness.

7.1 WHAT ARE BOOSTERS?

Boosters are special rewards that multiply your daily airdrop points. You can earn these boosters by inviting friends and building your team. There are four types of boosters, each offering unique benefits. Below is a breakdown of the booster advantages and how you can unlock them

Without Booster: 5 Daily Point on completing daily tasks

1. **Silver Booster: (2x)** - 10 Daily Airdrop Points – Invite 12 direct friends and enable your Silver booster.
2. **Gold Booster: (4x)** - 20 Daily Airdrop Points – When your 6 direct referrals get Silver Booster. You will receive your Gold booster.
3. **Platinum Booster: (6x)** - 30 Daily Airdrop Points – When your 5 direct referrals get Gold Booster. You will receive your Platinum booster.
4. **Diamond Booster: (8x)** - 40 Daily Airdrop Points – When your 5 direct referrals get Platinum Booster. You will receive your Diamond booster.

7.2 RULES FOR BOOSTER:

- Only KYC approved member will be counted as a valid referral

7.3 RULES FOR AIRDROP:

To participate in our airdrop, simply complete your daily tasks. On completing daily task, you'll earn daily airdrop points. At the end of each airdrop phase, these points will be converted into pixels.

- **Conversion Rule:** (Total Points Collected / Total Allocated Airdrop Pixels).
For example, in Airdrop 1.2, if the total allocated pixels are 100,000, the conversion ratio will be calculated as (100,000 / Total Points Collected by Participants).
- **Missed Daily Tasks:** If you miss a daily task, points will be deducted accordingly. For instance, with a silver booster and 100 points, missing two days will result in a 20-point deduction.
- **Multiple Account:** You cannot use multiple accounts on a single device
- After 15 days of inactivity, your account will be marked as inactive.

7.4 RULES FOR KYC:

- No duplicate verification for Telegram or Twitter.
- The account name must match the name on your ID document.
- The person completing the liveness check must match the person in the ID.
- Government-issued ID (front and back) must be provided, with clear photos.
- Young participants must have valid government ID proof.
- Airdrop age limit: 17 - 50 years old (Due current KYC applications).

While we highly respect elders and seniors, we need to ensure participants are familiar with mobile usage and can actively engage in the airdrop.

8. ROAD MAP FOR 1ST AIRDROP CONVERSION & SLE JACKPOT:

Starting from October 5th:

- **Conversion:** Airdrop participants will be able to convert their airdrop points into pixels and start earning daily profits.
- **Buying:** Those who have added funds can purchase pixels and begin earning daily profits as well.
- **Team Earnings:** Members who have built teams will start enjoying monthly income from their team's airdrop pixels.
- **Airdrop 1.2:** On October 20, 2024, we will launch our next bigger airdrop, giving participants the chance to collect more pixels and grow their income.

Roadmap for SLE Jackpot

We have exciting news! To make things simpler and more accessible, we've decided to separate the SLE Jackpot from the conversion and IPO processes. Here's why:

- **Interest and Information:** Many people want to know more about the SLE Jackpot before participating.
- **Dual Participation:** Individuals are interested in joining both SL-10 and SL-100.
- **Growing Our Community:** We aim to attract more participants so that everyone can benefit from this amazing opportunity.
- **Clarity in Buying:** We noticed that the buying process and SLE Jackpot details were causing confusion.

What's New?

We have postponed the SLE position allocation dates for SL-10 and SL-100 until the Airdrop 1.2 launch, allowing even more people to join and increasing the number of winners on allocation day!

How It Works

Starting from October 5th, when you buy pixels up until the SLE Jackpot position allocation date, you will receive a coupon for SLE participation.

- **Participation Coupons:**
 - If you purchase **10 to 99 pixels**, you will receive a coupon for **SL-10 participation**.
 - If you buy **100 to 999 pixels**, you'll get a coupon for **SL-100 participation**.

Want to join both SLE Jackpots? Simply buy **10 pixels** first, then purchase **100 pixels** in a second transaction. You'll receive coupons for both!

Participation Process and Position Allocation

On start of Airdrop 1.2, people having participation coupons will see a countdown timer on the SLE page, like we have on "Point to Pixel Conversion page".

On the Big Day:

When the countdown ends, a "Get Position" button will appear. The first person to click the button will secure the first position, the second person will get the second position, and so on.

Note: The position allocation for SL-10 and SL-100 will have a few days gap between them, allowing those with two coupons to participate in both Jackpots!

Get ready to join & secure your spot in the SLE Jackpot!

9. OUR UPCOMING TOKEN:

Exciting News for Our Pixel Holders: Unlock New Opportunities with Our Upcoming Token Launch!

After Airdrop 1.4, we're thrilled to introduce our token, as a way to reward our loyal community members with even greater benefits. This launch could be a life-changing milestone and a fortune-building opportunity for our pixel holders.

Important Note:

All rewards, monthly profits, and cash-outs will **always be paid in USDT (BEP-20)—NOT in our token**. Our token is a separate opportunity.

Our upcoming token will open exciting new opportunities for you, but we won't reveal all the details just yet. Here's what you need to know for now:

Token Supply & Launch Phases

- Total Token Supply: 3 Million
- **Presale (Round 1)**
 - Initial Price: 5 USDT
 - Supply: 100,000
- **Presale (Round 2)**
 - Initial Price: 10 USDT
 - Supply: 100,000

Further details regarding tokenomics, listings, and utilities will be discussed in the next version of our litepaper.

Exciting News: Why This Is Important for Pixel Holders

For our **pixel holders** who have not cashed out their pixels by the token launch date, there's an incredible opportunity! You will be able to **convert your unlocked and purchased pixels** into our token during **Presale Rounds 1**, giving you early access to this big opportunity.

How it's an Opportunity? Convert Your Pixels to Tokens in Round 1 -- **Cash out at \$10 Per Token** in Round 2
