# AIRDROP

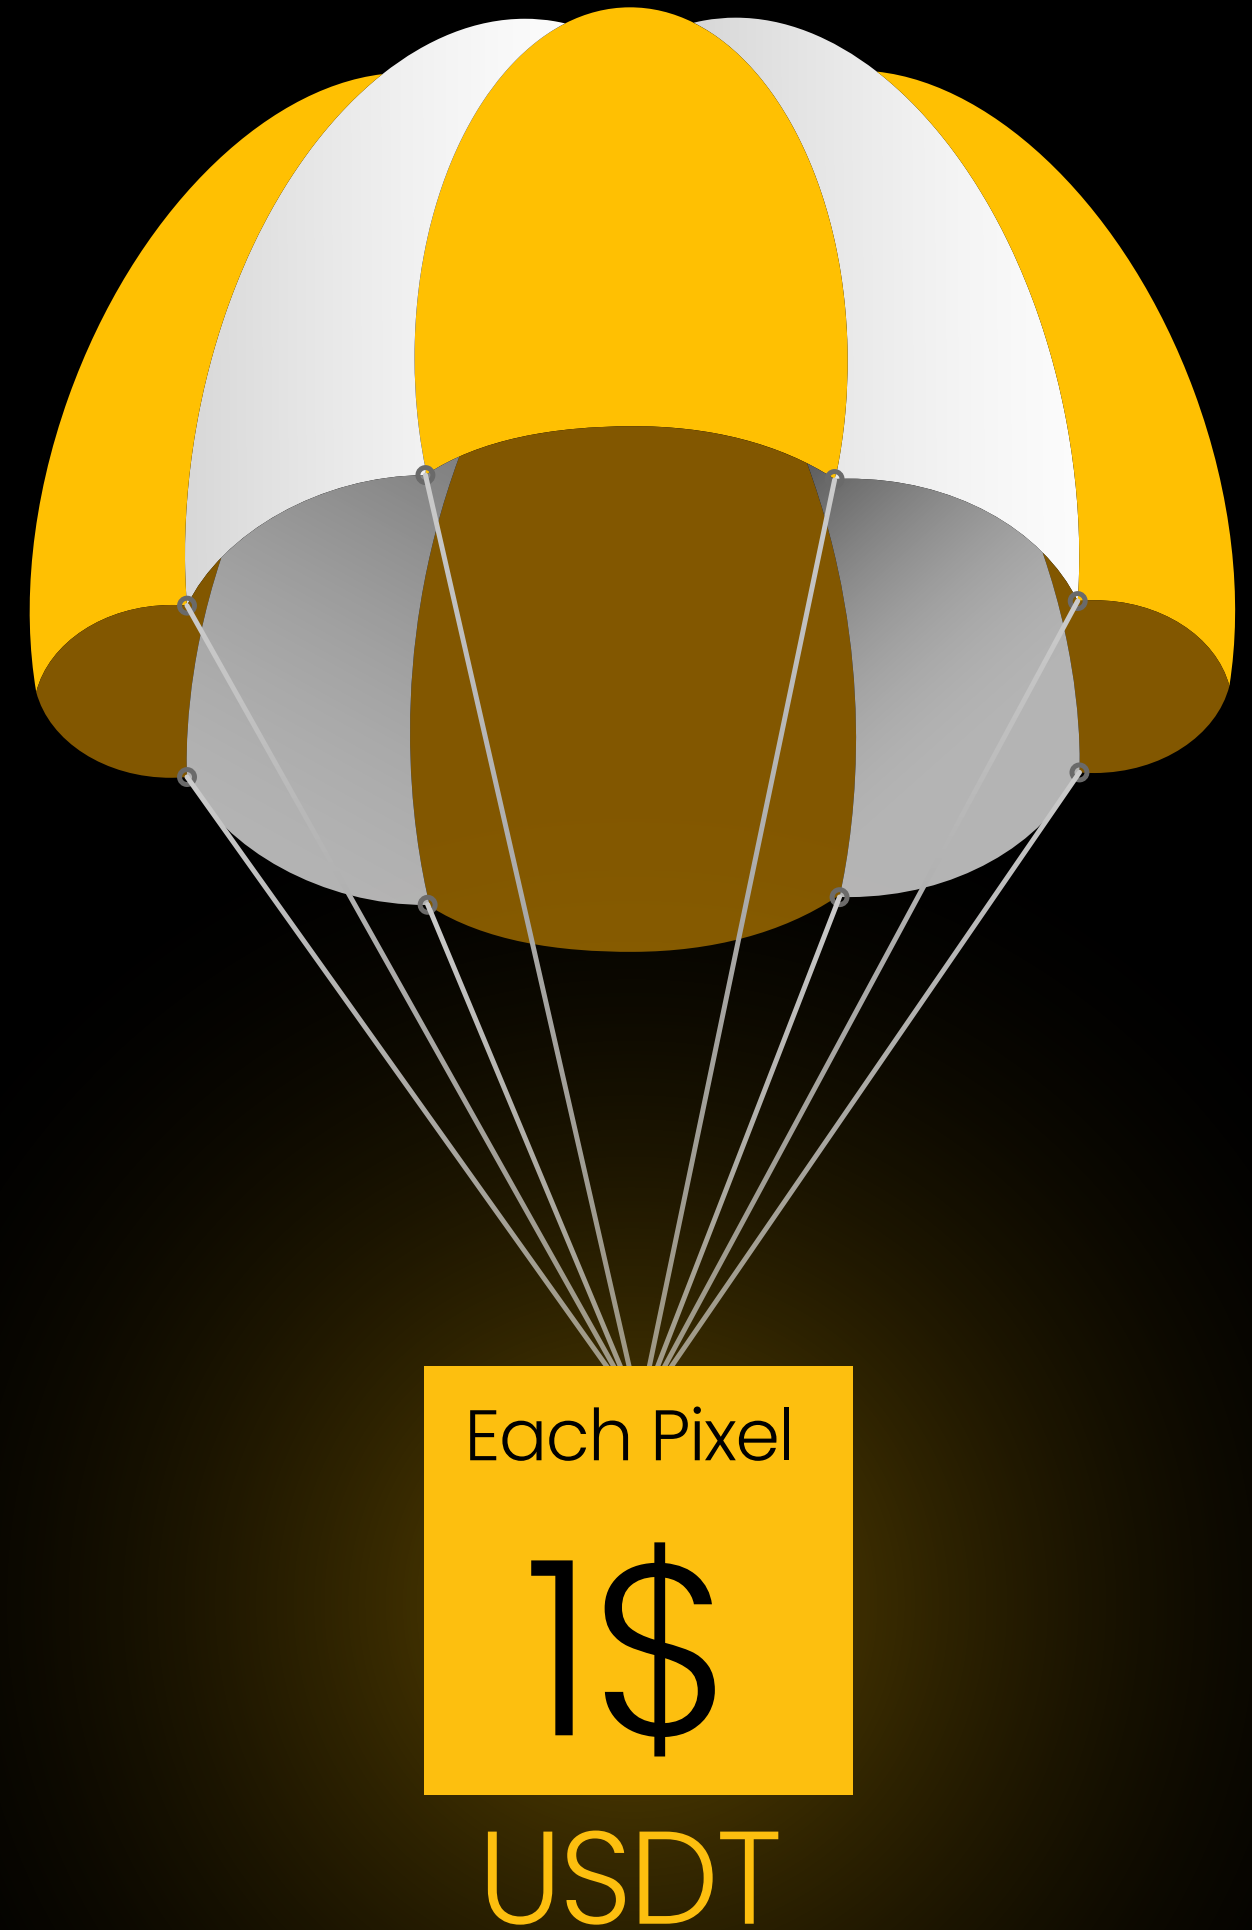

# Every Month **100,000** **Pixels Airdrop Reward**

An amazing airdrop series to collect free pixels. Where every month 100,000 airdrop pixels will be distributed for six months in a continuous airdrop series.

## **Airdrop** Distribution Plan

Every Airdrop participants will receive free airdrop pixels every month in three ways, based on three weightage factors..

# Monthly Distribution Plan

Here's how the 100,000 airdrop pixels are distributed each month, based on 3 weightage factors

## 1 Pixel Holding (60%)

60,000 pixels will be distributed, based on the number of pixels each member owns (gifted/purchased).

### Distribution formula:

$$\left(\frac{\text{Your Pixels}}{\text{Total Pixels}}\right) \times \text{Total Reward}$$

### Example:

If you own 100 pixels, and the total pixels owned by all members is 150,000, your monthly airdrop reward from holding pixels will be calculated as:

$$\left(\frac{100}{150,000}\right) \times 60,000 = 40 \text{ pixels}$$

## 2 Airdrop Points (20%)

20,000 pixels will be distributed, based on the points collected by members

### Distribution formula:

$$\left(\frac{\text{Your Points}}{\text{Total Points}}\right) \times \text{Total Reward}$$

### Example:

If you have collected 200 points, and the total points collected by all members are 2,000,000, your monthly airdrop reward from points will be calculated as:

$$\left(\frac{200}{2,000,000}\right) \times 20,000 = 2 \text{ pixels}$$

## 3 Team Reward (20%)

20,000 pixels will be distributed, based on the airdrop collected in your team up to 8 levels

### Distribution formula:

| Levels | Percentage |
|--------|------------|
| 1      | 8%         |
| 2      | 2%         |
| 3      | 2%         |
| 4      | 2%         |
| 5      | 3%         |
| 6      | 3%         |
| 7      | 5%         |
| 8      | 5%         |

### Example:

You will receive 8% of the total airdrop pixels collected by each friend you invite
